

It is the third day of the full-scale Ukrainian war for independence.

Ukraine is standing and is successfully fighting against the enemy. Intense battles are happening in a lot of cities and regions of our country. We, however, know that we are protecting our native land, our relatives and the future of our children. Armed Forces of Ukraine together with nationwide support are heroically resisting Russian aggression.

During this time our medics are working under bullets, missiles and explosions. With all their might, they are saving thousands of lives in every single corner of Ukraine: from West to East, from North to South.

Right now, doctors and nurses are our most valuable resource. Medics are heaving equally critical fight for life and health of soldiers and civilians.

Every day MOH receives countless requests from those who want to lend a helping hand to Ukrainian clinicians and hospitals.

Consequently, Ministry of Health of Ukraine alongside Ukrainian Red Cross Society have opened separate account to help health care facilities. Every Ukrainian citizen, enterprise and organization joined by friends of our country are able to transfer affordable financial aid to support hospitals in order to save defenders of Ukraine.

MOH provides bank account details of charities that raise funds to back up medical personnel as well.

All funds will be spent on security of hospitals and emergency medical facilities, which will be first to help injured people and ones who are joining the fight for lives and health of Ukrainians.

Support medics today so that tomorrow they could support you.
